Thresholds, Corners and Perimeters for Nose Work

With Gail McCarthy, CNWI, NACSW Judge and CO
Sunday, September 13, 2020

Expand your knowledge base of how scent travels when hidden in the area of a start line, when hidden in deep or shallow corners and when hidden along edges of the search area. Attend this 2 hour seminar and learn best practices for search patterns that will train your dog to overcome the scent riddle and bring them to the scent source.
